K-NETWORK

THE COMMAND CENTER FOR FILM PRODUCTION CREWS.

One real-time hub for schedules, call sheets, departments, logistics and crew communication — built on set for fast-moving reality productions.

01 · THE PROBLEM

CURRENTLY, PRODUCTION RUNS ON SCATTERED COMMUNICATION.

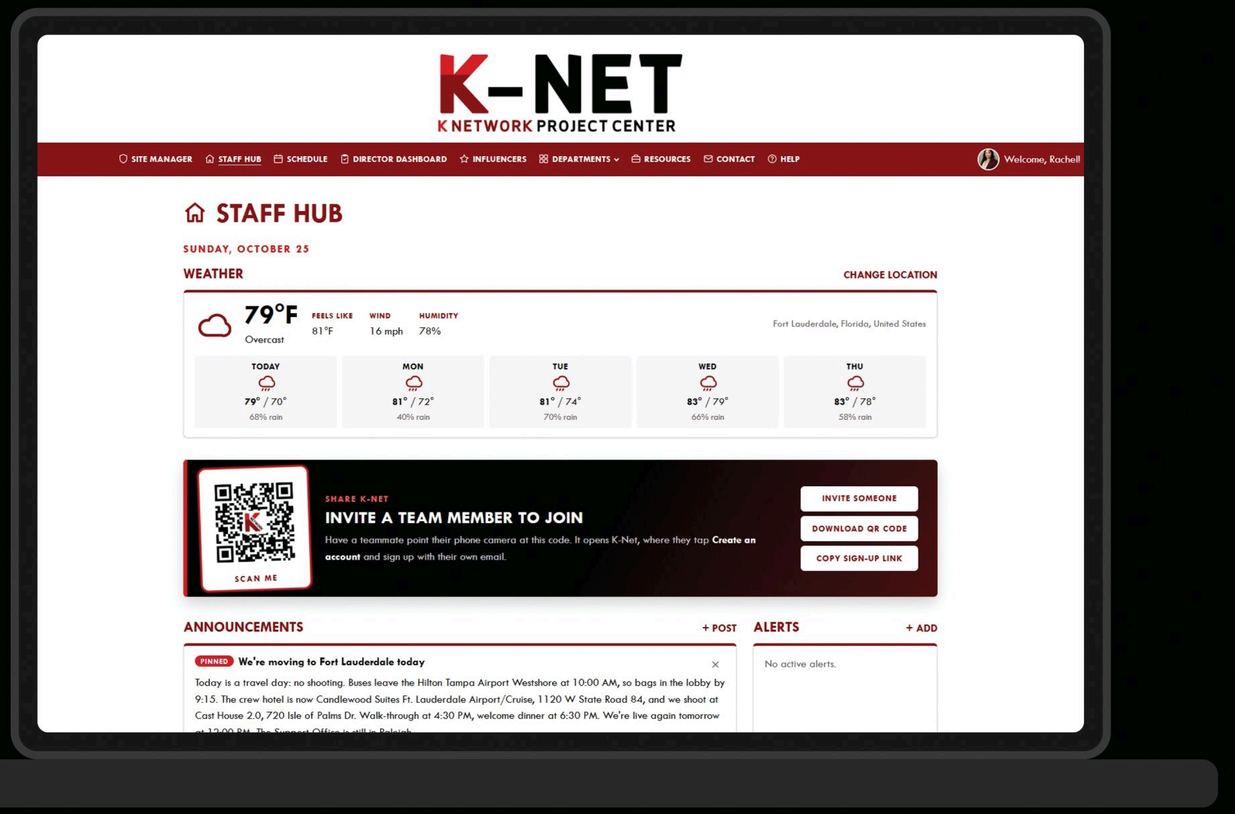

Texts + **Emails** + **PDFs & Spreadsheets** = **Lost info. Misaligned departments.**

There's **no single source of truth** for important information and logistics, and department heads and crew members are constantly sharing **broken communication lines** that need constant maintanenance and repair to work.

02 · THE SOLUTION

ONE REAL-TIME PLATFORM FOR THE WHOLE OPERATION.

K-Net **centralizes** all production information in **one** live source of truth and uses Slack (which is free and available for both android, apple and PC) to provide the conduit for quick-flowing information between crew members, directors, and assistants.

03 · KEY FEATURES

EVERYTHING THE SET NEEDS.

01

Schedules & Call Sheets

Daily schedules, branded call sheets generated.

02

Department Updates

Targeted updates for each department.

03

Logistics Tracking

Locations, gear and vehicles in one view.

04

Mobile-First Interface

Clean, fast, built for on-set use.

05

Real-Time Announcements

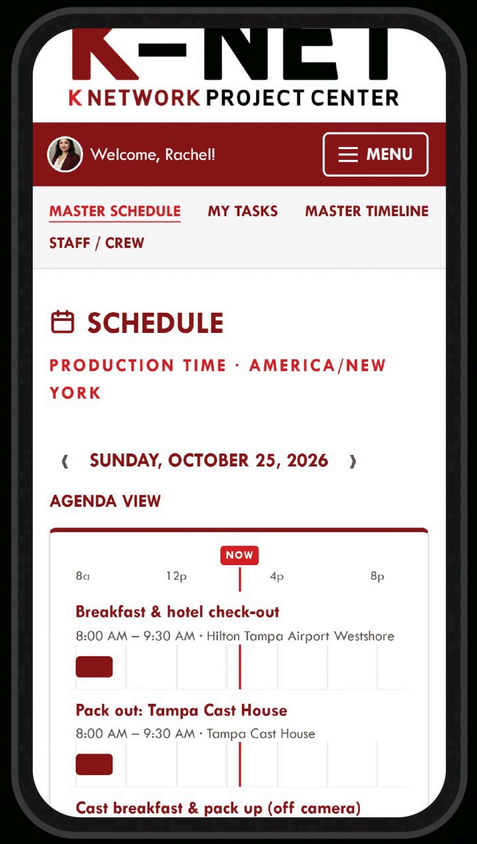

Pushed straight to cast and crew phones.

06

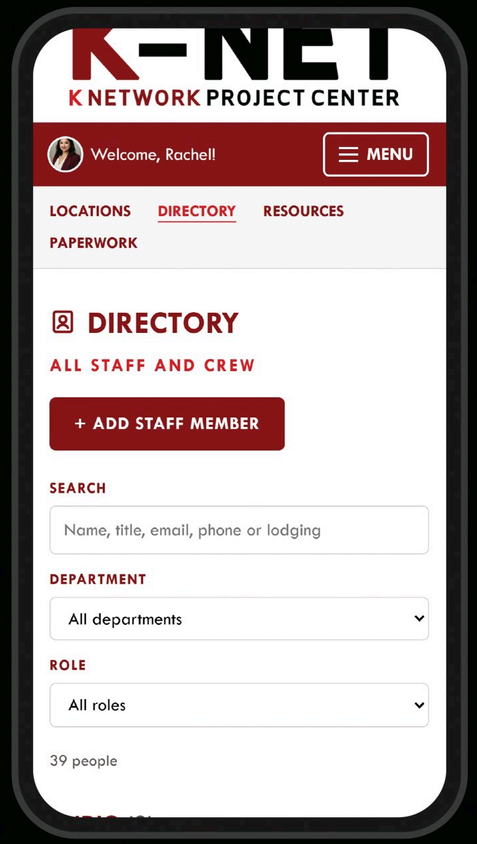

Tailorable Modules

Site admins can add or remove features as needed

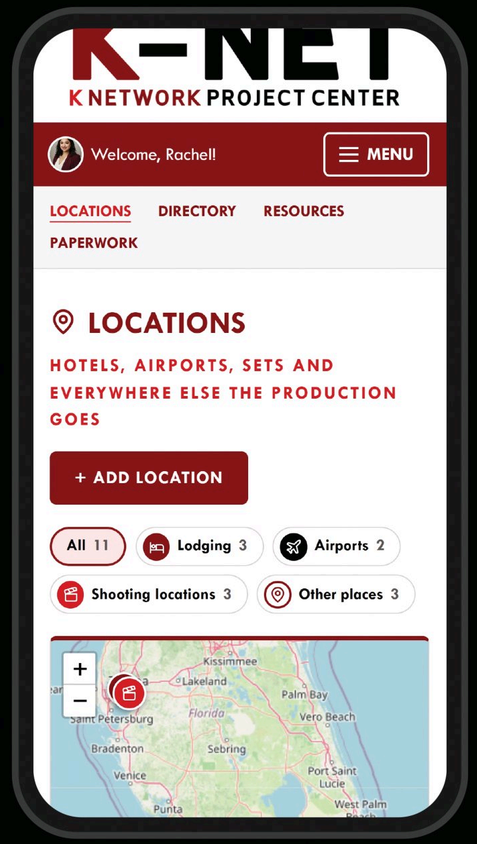

USABLE ON DESKTOP AND MOBILE

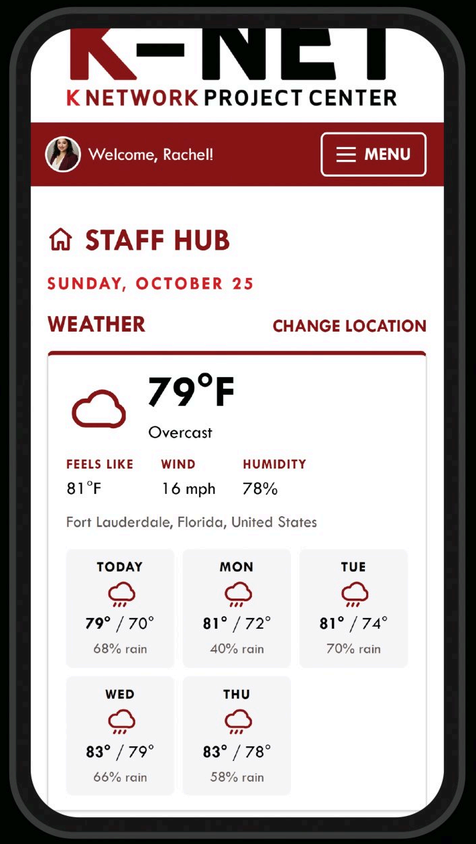

DAILY SCHEDULE

CREW DIRECTORY

LOGISTICS DASHBOARD

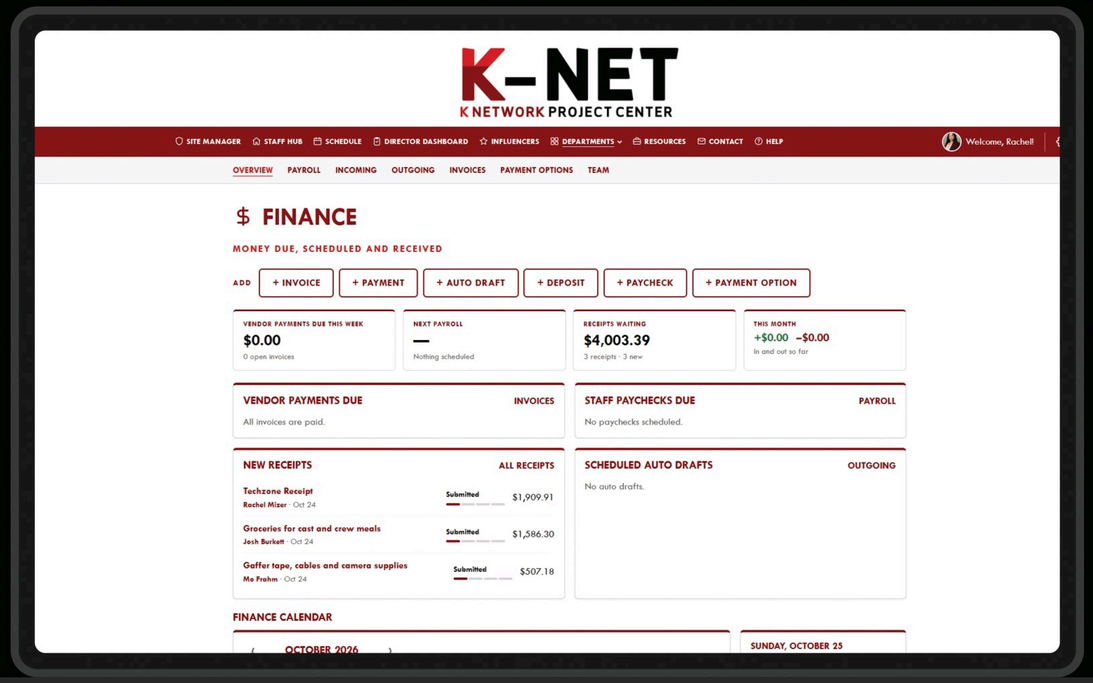

STAFF HUB & ANNOUNCEMENTS

05 · DEMO SCREENS

MORE OF K-NET

CALL SHEET GENERATOR

FINANCE OVERVIEW

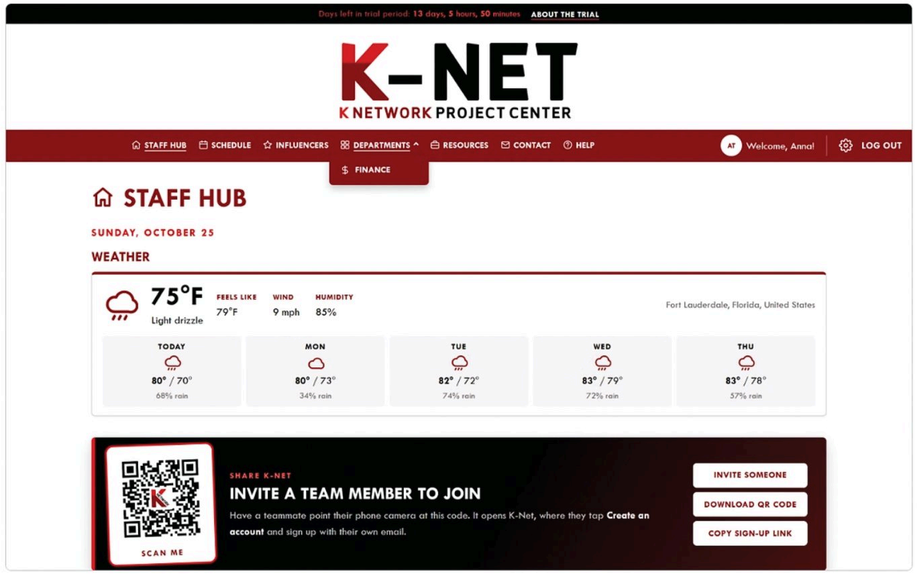

06 · ROLES & ACCESS

THE RIGHT ACCESS FOR EVERY ROLE.

Each crew member only sees the pages their job needs. Finance gets payroll, invoices and receipts. Tech gets its department head and schedule. Access is enforced on the server, not just hidden in the menus.

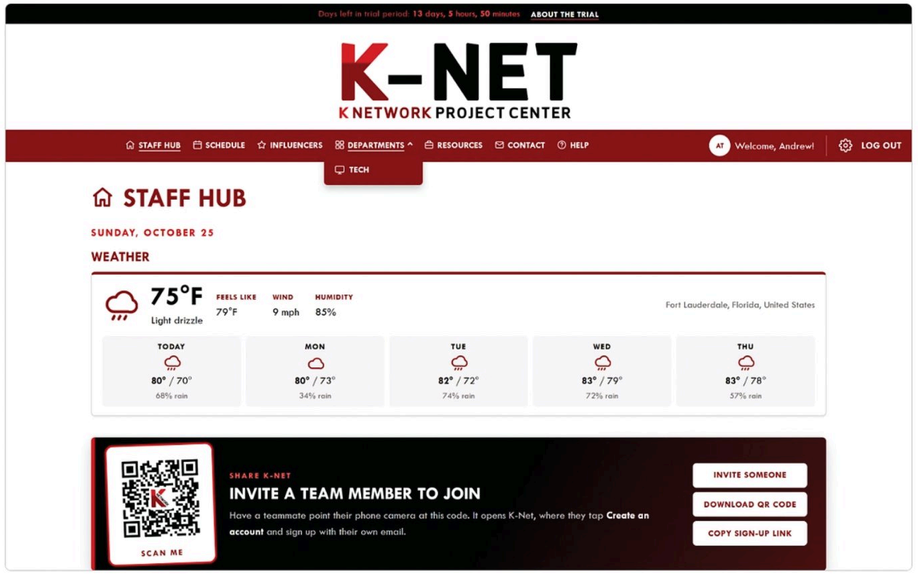

Anna · Staff, Finance

DEPARTMENTS MENU: FINANCE ONLY

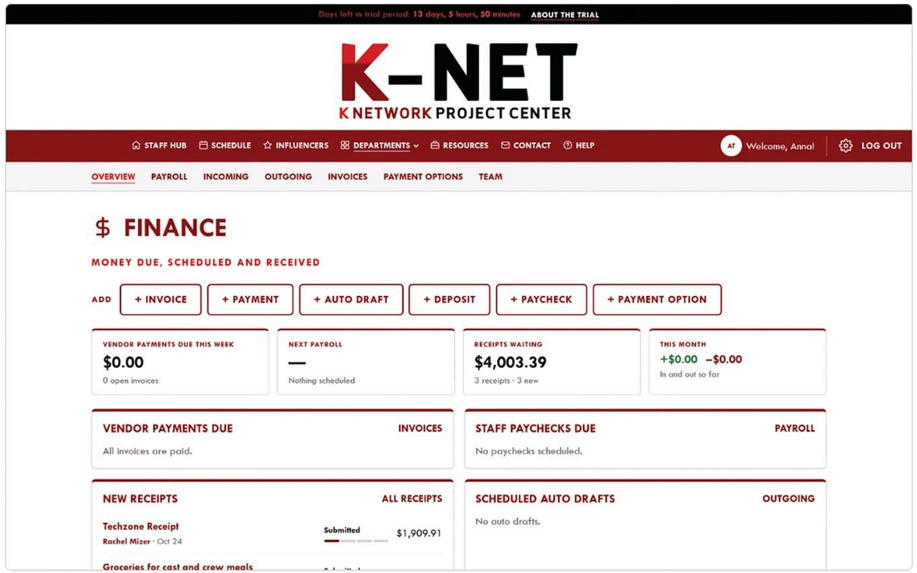

Andrew · Staff, Tech

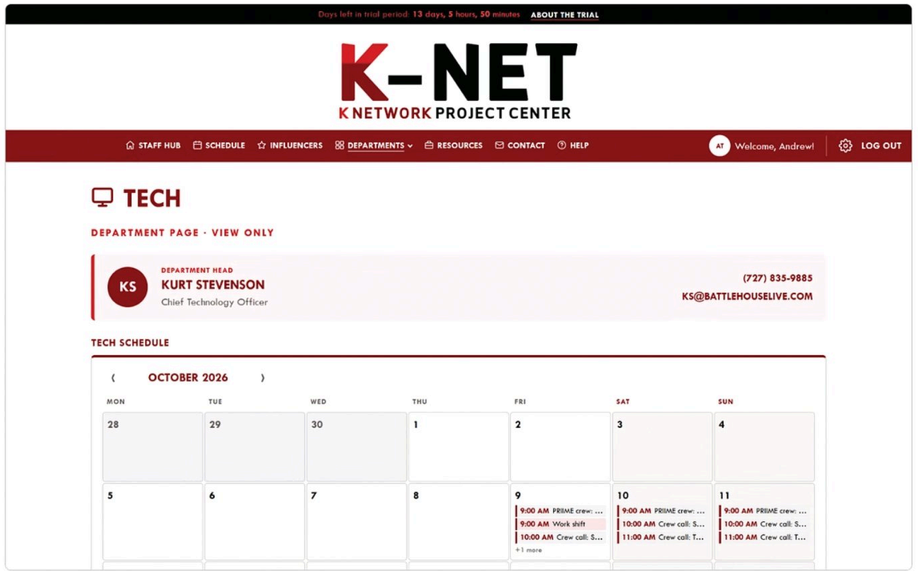

DEPARTMENTS MENU: TECH ONLY

HER DEPARTMENT PAGE: PAYROLL, INVOICES, RECEIPTS

HIS DEPARTMENT PAGE: DEPARTMENT HEAD AND TECH SCHEDULE

07 · SLACK INTEGRATION

ASSIGNED IN K-NET. DELIVERED IN SLACK.

Slack is a free team-messaging app for phone and desktop that many crews already use. The moment a task is assigned, the crew member gets a **Slack message** with a link straight back to it.

01 **Assigned tasks ping the person on Slack**

02 **Announcements reach the whole crew**

03 **Every message links back to K-Net**

04 **Finance & emergency contacts stay private in the app**

08 · WHY IT MATTERS

LESS NOISE. KEEP THE DRAMA ON CAMERA.

Designed for **real production workflows** — not generic project-management tools.

01 **K-Net reduces miscommunication**

02 **K-Net speeds up decision-making**

03 **K-Net keeps every department aligned**

04 **K-Net is built for real production workflows**

TIME IS MONEY. LET K-NET SAVE YOU BOTH.

THE COST

$15,000 one-time purchase + $500/week maintenance.
On a six-week shoot, K-Net pays for itself in about 2.5 weeks.
